Experience

Halocy Non-Profit / Development Advisor

2021 - PRESENT, Remove

Halocy is in the early stages of development with a team of students at Lehigh University. The organization aims to connect gifts and donations with the people who receive them.

Divulge / Creator/Software Developer

2020 - PRESENT, Florida

Divulge News app is available on IOS and Android. It is built with React Native and MongoDB. It is the only news app that allows users to comment anywhere in the article and then displays the comments on each paragraph. It also allows users to exchange snippets or quotes from articles and webpages. Then takes readers to the spot they were quoted from with a single touch.

Pivotal Edge Partnerships / Software Developer

2018 - 2020, Remote

Pivotal Edge specializes in event ticket distribution. We built and maintained software that regularly gathered data from multiple APIs along with MERN apps that allowed employees to search, organize and chart various data points.

Designzillas / Web Developer

MONTH 2017 - 2018, Florida

Designzillas specializes in hand-crafted Wordpress builds including custom themes and plugins that are built from the ground up.

Education

Self-taught, passion driven developer
